Introduction
The quarterly feedback highlights best and least performing districts with emphasis on key service outcome indicators for 2018 first quarter.
A “Graphical representation of League of performance” are shown from the best to the least performing district, inclusive of the overall regional performance. It also outlines evidence-based “Core Interventions” that lead to “desired outcomes” for specific indicators. National Targets of selected indicators is inserted in this document to facilitate focus on Health Service desired outcomes thus motivating alignment of Leaders & Managers at all levels to the achievement of the overall health objectives.

*Note
In this feedbacks “Colours” of best, Medium and least performing districts per an indicator will be colored green, Yellow & red respectively. And if the regional performance is included it shall be colored Purple unless otherwise stated.

A “Red Line” will be put across the “performance bars” to indicate the 2018 Regional Target for a specific Indicator.

ANALYSIS OF DISTRICT PERFORMANCE NEONATAL CARE –
Still Birth Rate

Figure 1: 1st Quarter (Jan-Mar) 2018 Still Birth Rate by Districts in UWR

- Region attained a rate of 1.5/1,000 births (75 still births) in 2018 same as 1.5 (70 still births) in 2017.
- Wa Municipal recorded the highest rate of 2.7 (40 S.B) in 2018 from 3.3/1,000 followed by Nandom with 16 from 2.1/1,000 in the previous quarter.
- Districts surfing within the green zone are Lawra, Lambussie and Nadowli districts.
Those within the Yellow zone are Sissala West, Jirapa, Sissala East and Wa East districts
Wa West and DBI recorded the least from the

Institutional Neonatal Mortality Rate (iNMR):
(National Target: 4 /1000 LBs)

Figure 2: 1st Quarter 2018 (Jan-Mar) Institutional Neonatal Mortality per 1000LB by district

Region attained a rate of 7.1 from a previously 6.7/1,000 Live Births by the 1st quarter 2018.
Sissala East recorded the highest of 11.5/1,000 live births with Wa Municipal, Nandom, Jirapa, Sissala West and Wa East joining the Red Zone for the quarter.
Nadowli is the Yellow Zone
Wa West, Lawra, Lambussie and Daffiamah Bussie Issah are surfing within the Green Zone.

INFANT & CHILD CARE

Institutional Infant Mortality Rate (iIMR):
(National Target: <30/1,000 LBs)

Figure 3: 1st Quarter 2018 (Jan-Mar) Institutional Infant Mortality By districts-UWR
Upper West Regional Health Directorate- 1st Quarter 2018 Performance Feedback to Districts

- Region recorded (26 deaths) attaining 5.1/1,000 LBs from same 26 deaths 7.8/1,000 LBS in previous quarter
- Two Districts Sissala East and Wa Municipal the highest and are in the Yellow zone with Wa Municipal recording 17 deaths giving 12.3/1,000 live births from 10 deaths 18.7/1,000 live births indicating the highest mortality rate
- The rest of the districts are far below the expected target and are in the green zone for the quarter

**Institutional <5 Mortality Rate (i<5MR):**

*(National Target: <40/1000 LBs)*

*Figure 4: 1st Quarter 2018 (Jan-Mar) Institutional under Five Mortality rate by District - UWR*

- Region recorded a total of 51 under five deaths from 31 with a mortality rate of 8.1 from 6.9 /1,000 live births in previous quarter.
- Wa Municipal, Jirapa and Nadowli are in Red though far below the expected Target, there is the need to look out
- Two Districts thus Nandom and Lawra are in the Yellow
- Sissala East, Wa West, Wa East, Sissala West, Lambussie and DBI are within the Green zone.

**ADOLESCENT SERVICE**

**Percentage Teenage Pregnancy.** (Regional Target - <12%) –

*Figure 5: 1st Quarter 2018 (Jan-Mar) Percentage of adolescents attending ANC 10-19 by districts*
Regional coverage was 13.2% in the 1st quarter compared to 13% in 2017.

Eight Districts are in Red thus Sissala East, Jirapa, Wa East, Lambussie, Sissala West Nadowli, Wa West and DBI. With DBI having the highest proportion of Adolescent Teenage pregnancy in the quarter.

Two districts are in Yellow Wa Municipal and Lawra Districts

Nandom recorded the lowest of 6.2% being the only region to attain the green.

MATERNAL SERVICES

Family Planning Coverage (Family Planning Acceptor Rate)

Annual Regional Target - 60%: Therefore a quarterly target coverage of 15% is expected for the 1st quarter

Regional 1st quarter performance was 14.5% (7,819) of the quarterly of 15%

Seven Districts are in green by Exceeding the quarterly target with Wa Municipal attaining the Highest of 22.8% (8,85 registrants)

Three Districts are in the Yellow Belt thus Lawra, Wa West and Sissala West Districts

The highest family planning coverage was 21.1% (6,270) in Wa Municipal

The lowest coverage being 8.7% (313 registrants) in Lambussie.
Antenatal Coverage
Annual Regional Target - 90%: Therefore a quarterly coverage target of 22.5% is expected for the 1st quarter.

Figure 7: 1st Quarter 2018 (Jan-Mar) Antenatal Coverage by Districts - UWR

✓ Region attained a coverage of 22.2% (7193 registrants) from 22% (7,146 ANC registrants) in the previous year quarter.
✓ Six districts are in the green with Wa Municipal, Sissala East, Wa East and Sissala West exceeding the target.
✓ Daffiamah Bussie Issa and Nandom are in Yellow with 18.8 and 18.0 respectively
✓ The lowest Coverage was Lambussie, Jirapa and Lawra taking the Red Zone

Percentage (%) Antenatal Mothers Registered in 1st Trimester
Regional Target for 1st Trimester Registration is 70%

Figure 8: 1st Quarter 2018 (Jan-Mar) Percentage ANC Registrants Registered in 1st Trimester by districts - UWR

✓ Region attained a coverage of 63% coverage for mothers registered in their 1st Trimester in the Quarter.
✓ Three districts attained a coverage beyond the expected target with Nandom recording the highest of 76.1%.
Six Districts are surfing in the Yellow zone with Lawra leading with a coverage of 66.2% and Wa Municipal getting 60.5%

The lowest Coverage Wa East with 51.2% and Wa West with 55.7% landing within the red Zone.

Percentage (%) Skilled Delivery

**Regional Target: 60%** therefore a quarterly target of 15% is expected for the 1st quarter

Figure 9: 1st Quarter 2018 (Jan-Mar) Percentage Skilled deliveries by districts – UWR

- Region attained 15.6% (5,052) from 13.9% (4,494 deliveries) an improvement over the previous.
- Four Districts are in Green with Wa Municipal attaining the highest of 28% (1384 deliveries)
- The Yellow districts also four in Number with Jirapa leading with 12.6% (512 deliveries).
- Three Districts did not do well and are marked red thus Wa East, Lawra and Lambussie, with Lambussie recording the least coverage of 7.4 (177 deliveries).

Percentage (%) PNC within 48 hours after delivery

Regional Target 100%

Figure 10: 1st Quarter 2018 (Jan-Mar) % PNC Registrants seen within the 1st 48 hours after delivery

- Regional performance stands at 95.2% from 96.1% in the previous year 1st quarter
Upper West Regional Health Directorate- 1st Quarter 2018 Performance Feedback to Districts

- Three Districts/Municipals are in Green with Lambussie, Sissala East and Wa Municipal attaining 100%
- The Yellow zone Districts are seven in Number with Lawra leading with 99.6% and Wa West taking the tail of the Yellow with 89.5%.
- The lowest coverage was Nandom Districts with 79.9% from 76.5% maintaining the same position from previous quarter.

Percentage (%) Postnatal Coverage
Regional Annual Target is 90%. Therefore a quarterly target of 22.5% is expected for the 1st quarter

Figure 11: 1st Quarter 218 (Jan-Mar) Postnatal Coverage by Districts -UWR

- Regional performance stands at 16.1% from 15% below the expected target of 22.5% for the quarter
- Three Districts are in the green zone with Wa Municipal attaining 28% as the highest thus exceeding the expected quarterly Target.
- Six Districts are within the Yellow with Nadowli leading with 15.9% while Jirapa ends with 12.6% coverage
- The red Zone Districts were Lawra and Lambussie.
Percentage of clients anaemic at registration (Hb< 11g/dl)

Figure 12: 1st Quarter 2018 (Jan-Mar) Percentage of clients anaemic at Registration (Hb<11g/dl)

- Region attained a coverage of 22.8% of Anaemia among Antenatal Mothers for the Quarter
- The best was recorded by Daffiamah Bussie Issa with 6.3% coverage
- Anaemia among pregnant women is high among Seven districts in the Region with Lawra recording the highest of 34.1% and Nadowli attaining the least among the highest with 20.9%
- Three Districts are within the yellow zone with Wa east leading with 12.3% and Sissala East least with 19.4%

Institutional Maternal Mortality Ratio (iMMR)
League of District Performance
Regional Target - 140/100,000 LBs

Figure 13: 1st Quarter 2018 (Jan-Mar) Institutional Maternal Mortality Ratio by Districts -

- Regional performance was 137.6 (7 Deaths from )111.7 (5 maternal deaths) previous 1st quarter
- Two Districts contributed all the maternal deaths in the quarter Nadowli Kaleo recording 1 death and Wa Municipal recorded 6 for the quarter.
**EXPANDED PROGRAMME ON IMMUNISATION (EPI IMMUNIZATION)**

*League of Regional Performance*

**Penta3**

Annual Regional Target: 90%. Therefore a target of **22.5** is expected for the 1st quarter

Figure 14: 1st Quarter 2018 (Jan-Mar) Penta3 Coverage under 1 by districts - UWR

- Region attained a coverage of 22% from **22.2%** Penta 3 coverage for the previous 1st quarter
- Six districts attained are in green with Wa Municipal recording the highest of **32.3%**.
- The rest of the districts are in Yellow with Wa East leading a coverage of **19.6** and Lambussie recording the least of **15.0**.

**Measles Rubella**

Annual Regional Target: 90%. *Least expected quarterly coverage is 22.5%*

Figure 15: 1st Quarter 2018 (Jan-Mar) Measles-Rubella1 (MR-1) Coverage under 1 Coverage by districts - UWR

- Regional performance was **22.2%** (7,207) from **20.5%** same period previous Year
- Four Districts/Municipal are surfing within the green zone with Wa Municipal in the lead **30.8%** (1,527) far exceeding the quarterly Target of 22.5%.
The Yellow Zone Districts were Six with Wa East in the lead with 21.9% (7,30)
Nandom District was in Red with a coverage of 14.8% (3,15)

**Measles 2 at 18 Months**
Annual Regional Target: 80%. Therefore a quarterly target of 20% is expected

**Figure 16: 1st Quarter 2018 (Jan-Mar) Measles-Rubella2 (MR-2) Coverage (18-59 months) by Districts -UWR**

- Region has attained 17.7% (5,755) from 16.7% (still below the expected target of 20%)
- Four Districts/Municipal are surfing within the green zone. Wa Municipal recorded the highest coverage of 25.4% (1,257) from 23.4% coverage still exceeding the expected target coverage for the quarter.
- The rest of the Districts/Municipals are in Yellow indicating that more measures should be intensified at achieving the annualized target. DBI is leading the yellow with 16.4% coverage (249) with Nandom covering the lowest of 12.2% (261)

**HIGHLY ENDEMIC DISEASES**
**MALARIA:**
**Malaria <5 Case Fatality Rate (CFR)**
League of Regional Performance

**Figure 17: 1st Quarter 2018 (Jan-Mar) Under 5 Malaria Cases Fatality Rate by Districts -UWR**
Regional under five malaria case fatality rate for the quarter stands at 0.09 per 1,000 from 0.45 recoded previously. This output could also be as a result of data sufficiency therefore districts should take note and review entries.

INSTITUTIONAL CARE

Service Utilization - OPD per Capita

Regional Annualized target for OPD Per capita is 1. Therefore the a quarterly target of 0.25 is expected

Figure 18: 1st Quarter 2018 (Jan-Mar) OPD Per Capita Ratio by Districts-UWR

- Region attained a per capita ratio of 0.3 from 0.9 previous quarter thus exceeding the expected target of 0.25.
- Five districts/Municipal are within the green Zone with Lawra recording the highest 0.4 per capita ratio.
- Three are in the Yellow Zone with all districts attaining 0.2
- The red districts were Jirapa, DBI and Wa East getting the lowest per capita of 0.3.

Service Utilization - Percentage Outpatients Insured

Figure 19: 1st Quarter 2018 (Jan-Mar) Percentage OPD Attendants Insured by Districts-UWR
In terms of Service utilization, the Region attained a quarterly coverage of 91.4% (188904 insured) from 94.1% showing a 2.7% reduction compared to previous year quarter.

Lawra as usual is leading the green team with 97.3% (22250) with Sissala West closing with 95% (12845).

Five Districts/Municipals are in the Yellow Zone with Jirapa leading 94.9% (17034)

The red Team Districts/Municipals are two thus Wa West and Wa East.

Service Utilization - Hospital Admission Rate

Figure 20: 1st Quarter 2018 (Jan-Mar) Percentage OPD Attendants Insured by Districts – UWR

The hospital admission rate for the 1st quarter was 21.2/1,000 population out of 17178 admissions of the annualized target population.

Six Districts/Municipals are in green with Nandom in the lead 50.6 (2701) admissions, ending with Nadowli 22.7 (1617) admissions.

The Yellow Team were Sissala West, Wa West and Lambussie

Red are the districts without hospitals thus DBI and Wa West.

Death Rate

Figure 21: 1st Quarter 2018 (Jan-Mar) Death Rate by Districts -UWR
Region recorded death rate of 17.6 (303 deaths) out of 17178 admissions from 17.8/1000 Hospital admissions.

The districts without hospitals are those in the green thus DBI, Lambussie and Wa East.

The Yellow Zone districts/Municipals are three with Sissala West 5.3 (3 deaths) Leading and Sissala East Closing with 11.4 (21 deaths)

The worst Districts/Municipals were five with Jirapa recording the lowest 17.5 (54 deaths) and Nadowli getting the highest of 27.8 (45 deaths from 1617 admissions for the quarter)

### Concluding Remarks:

The quarterly feedback helps to inspire, mobilize, align and motivate all staff, especially the leadership on performance indicators - mainly the outcome indicators, whilst creating the necessary enthusiasm to utilize coverage in producing evidence-based interventions. Besides imploring to use suggested key interventions, home-grown facility based practices are to be continued and scaled-up. There is the need to reiterate the fact that, this feedback cannot fulfil its utmost purpose, without its thorough discussion at all levels.

This will facilitate clear outlining of the performance gaps, leading to analysis of the associated inputs, processes and outputs which eventually culminates in the delineation of interventions that need continuation and new ones that need to be adopted and implemented to bridge the performance gaps over the “next evaluation period”.

In the light of the above-mentioned, District/Municipals that achieved targets for specific indicators are to provide “underlying reasons for their excellent performance” despite various challenges”. This will permit a fast-tracked collaboration and sharing with other districts in real-time to adopt, adapt and implement these tested interventions, to ensure maximum achievement of strategic objectives and the ultimate goal of “Health Improvement”.
