1.0 DIRECTOR GENERAL

Title of Post : Director General
Grade : Executive grade C
Responsible to: Chair of the GHS Council
Accountable to: Minister for Health

Job Purpose:
Provide executive leadership and leading edge strategic direction to enable the Ghana Health Service deliver innovative services and effective healthcare to the population.

Overview of role
This unique role calls for a transformational leader who will shape an agile and dynamic organisation, capable of delivering real strategic value to the general health service delivery frontline.
The role will require effective partnership working with the Ministry of Health, external organisations, other agencies and donors.
The role demands exceptional change management expertise and the ambition for the GHS to become an organisation of excellence.

Job Summary
- Lead and manage the GHS
- Implement health improvement strategies and plans
- Lead national modernisation of services to achieve the GHS plan targets and services that are accessible to the population
- Develop and deliver an appropriate portfolio of directly managed services which will improve the health of local communities
- Provide clear, credible and dynamic leadership for the strategic development and operational management of the corporate affairs, communication and partnership portfolio;
- Develop a long term, sustainable, strategic vision and plan for the GHS and ensure future organisational capacity to deliver it.

Key responsibilities
- Take corporate responsibility for the functions of the GHS and its agencies;
- Develop an energetic leadership presence as advocate for innovation for health and health care transformation in the GHS;
- Lead the development and implementation of high-impact solutions to the challenges facing the GHS in areas of strategic priority;
- Lead in the development of a Modernisation Agenda for the GHS;
- Communicate the Modernisation Agenda of the health service in a way that establishes a clear sense of purpose and ensures strong relationships with the Ministry of Health, external organisations, agencies and donors;
- Develop strategies and frameworks to support the GHS in the effective co-ordination of service redesign, unlocking workforce potential and the harnessing of new technologies;
- Develop a coherent strategic framework and annual delivery plan to ensure the continued improvement of services and most effective use of resources;
- Ensure that health and health services play a strong role in the country by strong GHS leadership and contribution to the delivery of strategic programmes of work which support health improvement, community development/involvement and effective delivery/commissioning of health services;
- Establish organisational strategies to ensure the successful creation of an effective leadership team;
- Deliver results, as agreed with the GHS Council and the Minister of Health through the priority setting mechanisms;
- Actively create links with overseas health, and other sectors, improvement leaders in overseas health systems and other sectors to develop learning;
- Represent the GHS nationally and internationally in the promotion of innovation for improvement in health and healthcare;
- Work closely with partners to develop capability and capacity in improvement skills in the GHS;
- Lead the development of a coherent and proactive communication strategy for the GHS;
- Promote a culture of collaboration between the GHS and other partners and stakeholders;
- Project a strong and positive corporate image, demonstrating integrity and a strong commitment to service provision, both within the organisation and externally;
- Ensure the monitoring of performance against service agreements within the GHS and other providers;
- Ensure the preparation of performance management reports as required, including annual reports and annual accounts
- Ensure a strong and effective framework of corporate governance including risk, clinical governance, controls assurance, health and safety, etc;
- Through these responsibilities to shape and deliver an organisation fit for purpose and to develop the Director Team as an effective leadership for delivery.

Qualities and experience required

Knowledge and Experience

- A high level of intellectual rigour and credibility at a national and/or international level;
- A track record as an agent for change
- Substantial management experience at Chief Executive or senior management level;
- Evidence of continuous improvement approaches to organisational and system dilemmas;
- An understanding of work in health/social care organisations will be an advantage
- Experience in creating and influencing political and multi-organisational level strategies;
- Knowledge and experience in one of the following: national and international improvement thinking, methodologies and innovation strategies; innovation of products or technology; learning; organisational and leadership development
- Evidence of working in a complex stakeholder environment.

Skills and Personal Qualities

- A creative, innovative leader who embraces diversity and challenge;
• Experience of driving and implementing substantial organisational change, in particular using new and innovative practices and technologies to improve services;
• Demonstrable flexible relationship and communication skills that embrace a range of styles;
• Ability to create partnerships that foster teamwork and networking both within the organisation and across organisational boundaries;
• Skilled performer in a variety of presentation settings;
• Significant personal standing which may include a national or international reputation in a relevant field;
• Tenacity, integrity, and positive motivational approach to people management and development;
• The drive, enthusiasm and vision needed to lead change in the organisation;
• Excellent personal communication skills, including tact and diplomacy when dealing with potentially difficult and sensitive issues;
• A commitment to the essence of health service delivery to encourage innovation and increase the capability of the GHS.
2.0 DEPUTY DIRECTOR GENERAL

Title of Post: Deputy Director General
Grade: Executive grade C
Responsible to: Chair of the GHS Council
Accountable to: Minister for Health

Job Purpose:
Work together with the Director General to provide executive leadership and leading edge strategic direction to enable the Ghana Health Service deliver innovative services and effective healthcare to the population

Overview of role
This unique roll calls for a transformational leader who will work together with the Director General to shape an agile and dynamic organisation, capable of delivering real strategic value to the general health service delivery frontline. You will lead and be responsible for the operational functions of the Ghana Health Service. The role will require effective partnership working with the Ministry of Health, external organisations, other agencies and donors. The role demands exceptional change management expertise and the ambition for the GHS to become an organisation of excellence.

Job Summary
Working together with the Director General
- Lead and manage the GHS
- Implement health improvement strategies and plans
- Lead national modernisation of services to achieve the GHS plan targets and services that are accessible to the population
- Develop and deliver an appropriate portfolio of directly managed services which will improve the health of local communities
- Provide clear, credible and dynamic leadership for the strategic development and operational management of the corporate affairs, communication and partnership portfolio;
- Develop a long term, sustainable, strategic vision and plan for the GHS and ensure future organisational capacity to deliver it.

Principal Duties
Under the direction and on behalf of the GHS Board, the Deputy Director General will:

- Work closely with the Headquarters and Regional Directors to develop a strategic direction for the GHS and lead the creation of a strong organisation with a coherent long term health strategy for the provision of health care services and deliver wider health improvement within all regions.
- Work with the Director General to ensure the effective working and development of the GHS Executive Committee and Board.
- Be responsible for the operational function of the service.
• Lead the developing of a Modernisation Programme reflecting the health status and the health needs of the population.
• Ensure that budgeting and financial systems are sound and in accordance with GHS financial instructions. Maintain financial control within allocated resources. Ensure the development of a financial risk plan and forward financial strategy for the GHS with a focus on financial sustainability and advocacy/demonstration of the GHS below capitation and high deprivation status.
• Ensure the monitoring of performance against service agreements with GHS agencies and other providers.
• Ensure the preparation of performance management reports as required, including annual reports and annual accounts.
• Ensure a strong and effective framework of corporate governance including risk, clinical governance, controls assurance, health and safety, etc.
• Work in partnership with other agencies to secure the wider health of the population.
• Develop closer integration of primary and community health services and ensure closer working with other agencies on both planning and delivery.
• Ensure that health and health services play a strong role in the country by strong GHS leadership and contribution to the delivery of strategic programmes of work which support health improvement, community development/involvement and effective delivery/commissioning of health services.
• Facilitate and support professional development, audit and peer review and the development of clinical governance.
• Through these responsibilities to shape and deliver an organisation fit for purpose and to develop the Director Team as an effective leadership for delivery.

Person Specification

Qualities and experience required

8.4 Deputy Director, Information, Monitoring and Evaluation (PPME)

Job Title: Deputy Director, Information, Monitoring and Evaluation

Grade: Deputy Director

Responsible To: Director PPME, GHS

Accountable To: Director General, GHS

Job Purpose

Produce and manage health information as a management decision support system, made accessible to all functionaries of the GHS for effective decision making.

Main Duties and Responsibilities

- Develop level specific performance indicators and contracts consistent with national, bilateral and International expectations.
- Coordinate the publication of documents relating to the GHS activities (annual reports and other periodic reports) and ensure that the activities are properly documented and relevant information is disseminated.
- Collaborate with all other directorates to set up a health and management information system for planning, monitoring and evaluation.
- Monitor the implementation of health policies, the utilisation of health resources and the attainment of targets for coverage utilisation of services and health status.
- Develop systems for monitoring and evaluation of various services and health within GHS.
- Develop and update appropriate health data collection forms to facilitate planning for health improvement and monitoring of performance.
- Carry out trends assessment for GHS by drawing on relevant sources of information to analyse the overall performance of GHS and monitor progress in implementing key policies.
- Liaise with the HRDD to develop appropriate training programmes for the staff in the department.
- Design and apply monitoring and evaluation systems and tools for purposes of assessing the operational effectiveness of programmes of the GHS as well as programmes of implementation partners.

Communication and Working Relationship

- Foster good communication and team working relationships within the organization
- Develop working partnership networks with individuals, groups, communities and agencies
- Liaise with Divisions and Representative Donor Agencies on matters relating to health information, monitoring and evaluation.
- Liaise appropriately with the MOH/GHS management ensuring open and effective communication is maintained.
• Be a visible and approachable resource for staff for matters relating to health information, monitoring and evaluation

**Personal & People Development**

• Develop and maintain continuing personal and professional development to meet the changing demands in the area of health information, monitoring and evaluation
• Monitor own performance against agreed objectives.
• Undertake training, coaching and performance appraisals for staff in the Department.

**Management**

• Provide effective leadership in the Department.
• Coordinate activities within the Department.
• Ensure effective use of resources in the Department.
• Promote a positive image of the GHS.
• Devise improved job methods for increasing efficiency
• Ensure that complete, accurate and up to date records are maintained in the Department in accordance with the GHS Guidelines for record keeping and management
• Plan departmental workload and manage the Department to accomplish work on schedule
• Prepare and implement departmental budget according to organizational policies and guidelines.

**Health and Safety Responsibilities**

• Take care of own safety and ensure the safety of other staff in the department.
• Promote adherence to existing health and safety policies and procedures of the GHS/MOH.
• Promote maintenance of safe systems and safe workplace.

**Quality Assurance**

• Promote adherence to the GHS quality assurance policy and guidelines.
• Act as a role model in quality improvement.
• Keep up-to-date with quality developments relevant to area of work and related services.
• Continuously monitor activities against quality standards, anticipating factors that may reduce quality and taking effective action to address them.

**Further Information**

• The post holder must at all times:
  
  o Work in accordance with the GHS Code of Professional Conduct and Disciplinary Procedure.
  o Strictly adhere to the provisions of the Patient’s Charter.
  o Participate in National Health Programmes
This job description is intended as a guide to the principal duties and responsibilities for the post and should not be considered an exhaustive list. It is subject to change in line with future development of the service.

9.0 DIRECTOR AND DEPUTY DIRECTORS, INTERNAL AUDITOR

9.1 Director, Internal Audit Division

Job Title : Director, Internal Audit Division
Grade : Director
Responsible To : Director-General, GHS
Accountable To : Director General, GHS

Job Purpose
To assist the GHS Council to maintain effective Internal Audit function within the Service to serve as an overall control measure, and provide an invaluable and independent service to all levels of management in achieving the government's important goals and objective of the Health Sector

Main Duties and Responsibilities

- Draft and update procedures (Audit Programs) to guide audit staff on the approach and methods to be used to conduct audits, assess controls, verify assets, inspect records, ascertain compliance, evaluate performance, and follow-up on recommendations - all in accordance with the standards for the Professional Practice of Internal Auditing, as applicable to the Service.
- Determine the adequacy of audit coverage and the optimal use of human, material and financial resources to achieve the desired level of reasonable assurance to the Council that:
  - Information reported by management is reliable:
  - Activities are carried out in compliance with all relevant laws, rules, regulations, policies and procedures;
  - Resources are used with due regard to economy and efficiency; and
  - Programme results are consistent with established goals and objectives;
- Maintain a system of quality assurance within the Division to ensure that staff are adequately supervised, and that work is adequately planned, coordinated, carried out and reviewed in accordance with established procedure.
- Bring to the attention of higher levels of management, opinions or suggestions of staff that seem to warrant serious consideration, even if immediate supervisors have already rejected them.
- Maintain the results of audits and evaluations in the strictest confidence, subject to any legal or ethical requirements for disclosure to outside authorities.
- Provide annual Plans and Budget of the Division to the Director-General and the Audit Committee of Council for approval and inclusion in the Service's annual plans and budget.
- Provide a detailed report of all internal auditing activities, including comparison of actual work performed to plan, to the Director-General of the Service and the Internal Audit Agency Board within forty-five (45) days of the end of each quarter.
- Coordinate the total auditing effort, both internal and external, in the interest of minimizing duplicate efforts and in contributing, as far as professionally permissible, to the work of the external auditor(s) bearing in mind that final determination of the extent of such contribution rests with the external auditor(s).
• Communicate with the external auditors(s) on all significant matters, which will be brought to the attention of the Audit Committee of Council.
• Perform other official duties assigned by the Director-General from time to time.

Communication and Working Relationship

• Foster good communication and team working relationships within the organization.
• Liaise with Director-General, Audit Committee of Council, Divisional and Regional Directorates, Financial Controller’s Office, Internal Audit Agency, Audit Service, Controller and Accountant-General’s Department and other related agencies on issues relating to internal audit.
• Liaise appropriately with the GHS Management, ensuring open and effective communication is maintained.
• Be a visible and approachable resource for staff for matters relating to internal audit.

Personal & People Development

• Develop and maintain continuing personal and professional development to meet the changing demands in the area of internal audit.
• Monitor own performance against agreed objectives.
• Create an enabling environment to promote staff development.
• Arrange for continuing professional education and ensure performance appraisals for staff in the Division.

Management

• Provide effective leadership in the Division.
• Coordinate activities of all departments within the Directorate.
• Ensure effective use of resources in the Division.
• Promote a positive image of the GHS.
• Devise improved job methods for increasing efficiency
• Ensure that complete, accurate and up to date records are maintained in the Division in accordance with the GHS Guidelines for record keeping and management
• Plan divisional workload and manage the division to accomplish work on schedule
• Prepare and implement divisional budget according to organizational policies and guidelines.

Research

• Co-ordinate and implement R & D programmes.
• Apply relevant evidence-based research findings.

Health and Safety Responsibilities

• Take care of own safety and ensure the safety of other staff in the division.
• Promote adherence to existing health and safety policies and procedures of the GHS.
• Promote maintenance of safe systems and safe workplace.
Quality Assurance

- Promote adherence to the GHS quality assurance policy and guidelines.
- Act as a role model in quality improvement.
- Keep up-to-date with quality developments relevant to area of work and related services.
- Continuously monitor activities against quality standards, anticipating factors that may reduce quality and taking effective action to address them.

Further Information

9.3 Deputy Director, Regional Audit Supervisors (Internal Audit)

**Job Title**
Deputy Director, Regional Audit Supervisor, Internal Audit

**Grade**
Chief Internal Auditor

**Responsible To**
Director, Internal Audit, GHS

**Accountable To**
Director General, GHS

**Job Purpose**
Responsible for ensuring that the IAD’s operational activities at the regional level are carried out in accordance with IAD’s policies and directives as set forth in the IAD Policies and Procedures Manual (‘PPM’), and as issued from time-to-time by the IAD Director. In this capacity, Regional Audit Supervisor is held accountable by the IAD Director for the effective planning, execution, and reporting of all IAD audit results within their purview.

**Main Duties and Responsibilities**

- Conduct annual planning meetings with the Regional Director of Health Services and Senior management to:
  - Agree on the initial number of auditees to be included in the audit coverage and three-year audit cycle target groups,
  - Agree on any GHS programmes that warrant audit emphasis.
- Ensure that the draft IAD Regional Office Work Plan and Budget are submitted to IAD HQ in accordance with the instructions given by the Director.
- Direct and otherwise take charge of all phases of Control & Compliance audits as required by the IAD PPM and, in so doing:
  - Represent the IAD in all verbal and written communications with target auditees;
  - Ensure that IAD Staff Auditors are properly supervised and that their audit work is conducted in accordance with the IAD PPM;
  - Ensure that Audit Working Papers are complete, and meet IAD quality standards prior to concluding field work;
  - Ensure that IAD draft Audit Reports are consistent with all relevant sections of the Audit Working Papers; and
  - Ensure that closure is not brought to an audit until all follow-up actions have been completed.
- Oversee implementation of all non-audit related tasks of the IAD Regional Office including, participation in planned professional development efforts by Regional Staff Auditors.
- Ensure that the IAD Regional Office Work Plan and Budget Status Reports are submitted timely and accurately.
- Attend meetings of the Regional Health Committee as required by the Regional Director of Health to report on significant audit findings relevant to auditees in the region.

**Communication and Working Relationship**

- Foster good communication and team working relationships within the organization
• Liaise with Regional Health Director and other Heads of Departments of the Regional Health Directorate and other related agencies on issues relating to internal audit.
• Liaise appropriately with the GHS Management, ensuring open and effective communication is maintained.
• Be a visible and approachable resource for staff for matters relating to internal audit.

Personal & People Development

• Develop and maintain continuing personal and professional development to meet the changing demands in the area of internal audit
• Monitor own performance against agreed objectives.
• Undertake training, coaching and performance appraisals for staff in the Department.

Management

• Provide effective leadership in the Unit.
• Coordinate activities within the Unit.
• Ensure effective use of resources in the Unit.
• Promote a positive image of the GHS.
• Devise improved job methods for increasing efficiency
• Ensure that complete, accurate and up to date records are maintained in the Unit in accordance with the GHS Guidelines for record keeping and management
• Plan unit workload and manage the unit to accomplish work on schedule
• Prepare and implement departmental budget according to organizational policies and guidelines.

Health and Safety Responsibilities

• Take care of own safety and ensure the safety of other staff in the unit.
• Promote adherence to existing health and safety policies and procedures of the GHS/MOH.
• Promote maintenance of safe systems and safe workplace.

Main Duties and Responsibilities

- Lead in the development, monitoring, evaluation and implementation of clinical services in the facility in accordance with the national health policy.
- Ensure that high clinical standards are met in the provision of medical services.
- Ensure quality clinical practice through performance standards and statistical information.
- Set and coordinate work programmes to achieve set targets in the facility.
- Facilitate the development of operational policies, systems and procedures for efficient service delivery and for assessing and minimizing risk to all staff.
- Ensure that clinical services provided in the facility meet the physical, social and emotional needs of patients/clients.
- Allocate at least 30% of time to direct clinical services.
- Ensure that the waiting time objectives are met.
- Provide leadership and technical support in the development of clinical protocols and guidelines using a multidisciplinary team.
- Lead in the preparation of strategic plan for the hospital and advocate for its implementation.
- Lead in the establishment and implementation of effective monitoring and supervision system for the facility.
- Provide leadership for the development of plans and budget for the facility.
- Play a lead role in the development of services to meet local needs.
- Promote evidence-based practice.
- Contribute to policy formulation for the organization.

Communication and Working Relationship

- Foster good communication and team working relationships in the facility.
- Develop working partnership networks with individuals, groups, communities and agencies.
• Liaise with other Medical Superintendents, Regional and District Health Director, District Assembly, NGOs, Community leaders and other external health related agencies on issues of health importance in the community.
• Liaise appropriately with the Head of Departments in the facility, ensuring open and effective communication is maintained.
• Be a visible and approachable resource for staff and general public for health matters in the community.
• Lead in ensuring that patients’ right are protected.
• Be able to work with and direct all categories of staff in the facility in a fair and impartial manner

Personal & People Development

• Develop and maintain continuing personal and professional development to meet the changing demands in the area of health service management.
• Monitor own performance against agreed objectives.
• Create an enabling environment to promote staff development.
• Arrange for continuing professional education and ensure performance appraisals for staff in the facility.
• Keep up to date with current developments in clinical services.
• Lead in the development of skills through small group teaching in the facility.
• Ensure orientation of new health personnel in the facility.

Management

• Provide effective leadership in the facility.
• Coordinate activities of all departments within the facility.
• Ensure proper documentation and prudent use of resources in the facility.
• Ensure regular availability of logistics, drugs, supplies and equipment in the facility.
• Ensure that the equipment needs of the facility are met.
• Ensure 24 hour service delivery in the hospital.
• Promote a positive image of the GHS.
• Devise improved job methods for increasing efficiency in the facility.
• Ensure that complete, accurate and up to date records are maintained in the facility in accordance with the GHS Guidelines for record keeping and management.
• Oversee the preparation and implementation of the facility plans and budget according to organizational policies and guidelines.
• Be ultimately responsible for the provision of managerial and technical support for all clinical and support services in the facility.

Research

• Provide technical support to and direct staff undertaking clinical research.
• Conduct operational research.
• Make use of the research findings.
• Mobilize funding for research.

Health and Safety Responsibilities

• Promote adherence to existing health and safety policies and procedures of the GHS/MOH.
Ensuring that:
  o Appropriate resources for safety practices are available in the various units within the facility
  o Equipment is maintained according to GHS Policy
  o Training in health and safety hazards is up to date
  o Staff comply with infection prevention protocols

Ensure personal safety, staff safety and that of clients/patients in the facility

Quality Assurance

Ensure that quality assurance systems are in place for monitoring quality and for investigating incidents and complaints in the Health Facility

Collaborate with health team members to assess and evaluate clinical practice.

Support the management of clinical audit, promoting and participating in Quality Assurance issues including multidisciplinary audit and quality initiatives.

Ensure that staff comply with the GHS/MOH quality assurance guidelines.

Serve as a role model in quality improvement, offering advice and support to others.

Keep up-to-date with quality developments relevant to area of work and related services, alerting others to new developments and the implications of these for their practice.

Continuously monitor activities against quality standards, anticipating factors that may reduce quality and taking effective action to address them.

Lead in the prompt identification and investigate poor quality services, the contributing factors and methods for addressing them.
